Priority: Urgent

All hands on deck. **Mr. Burn** is on the warpath and looking for the car that ran over his son and puts **Todd Snodgrass** on the case. **Mr. Snodgrass** was noticed by a number of ADHD employees trying to sneak his car out of the parkade. Something seemed odd about his behaviour and one employee could have sworn that he had **Vicki Vanderstandten nee Vanstandten** in the car with him although it was hard to tell if it was her as Mr. Snodgrass was holding the woman's head in his lap.

Everyone needs to focus their attention on our newest client, Wardair. **Mr. Burn** has just purchased the controlling share of the company and wants new advertising that will give a sense of the strength of this airline...possibly something like "Wardair...We'll be around forever." Employees are reminded that they are to fly to the staff retreat in Mexico City on Wardair flight MX196 to get a sense of the company and how they work. Hopefully **Mr. Burn** won't get hit by a car or anything and miss the flight. hoHOHOpefulle

Former production department secretary **Delores Mosco** showed up to apologize to **Pierre** at the French Connection but was met by a drunken Irishman...**Seamus**...St Patrick's Day, don't ye know. At the office she heard about the flight but was waylaid by **Mr. Burn**. Hopefully she doesn't leave **Forrest Bronson** waiting at the airport. **Todd Snodgrass** and **Vicki Vanderstandten nee Vanstandten** arrived at the airport with new identities. Apparently they need to get out of the country in a hurry as something happened with Todd's car and another innocent bystander. **Marlow Hayworth** arrived with a stranger who looks a lot like **Leo Titan** in a cardigan sweater and they were pretty chummy on the plane sitting in front of...**Henry Donaldson Jr!**? But he was last seen in prison awaiting trial for the shooting of **Leo Titan**. According to the stewardess, **Kitty Finch** is on the plane as well, but managed to lock herself in the lavatory.

Henry Donaldson Jr. Sir was worried when poor **Brandy Decanter-Titan** almost missed the flight. It is a business trip for ADHD and we all know how she feels about the business and what it's done to her marriage. According to Delores's mother **Dotty**, who watched the plane from the airport lounge, it headed out over the Atlantic Ocean where she could have sworn it started a rapid descent. Perhaps the pilot was showing off some safety features. It would be a shame if the plane crashed with all those people aboard.

Coffee room cleanup: **Ms. Vanderstandten nee Vanstandten.**
