Priority: Urgent

New Creative Director **Miss Kitty Finch** instructs all staff to attend a mandatory meeting this afternoon to discuss all current projects. Since **Leo Titan's** re-admission to the hospital, all staff will need to work overtime to complete deadlines for Geritol and Camel Cigarettes (the most recent pitch for a slogan is "Camel Cigarettes; even babies love them!"). The boardroom remains closed as the cleaning staff continue their efforts to remove Mr. Titan's blood stains from the carpet. Miss **Marlow Hayworth** will be away from her desk periodically between 10 am and 3 pm as she convulses in fear and tears in the ladies' washroom. Rumours that she is reacting to information she has about the shooting of Mr. Titan are 'all lies' states Miss Hayworth.

New owner **Dougie 'Bottom Line' Burns** would like all staff to consider the 'economic downturn' since October of 1963 before criticizing his decision to not bail his son **Henry Burns Jr.** out of jail for the attempted murder of Mr. Titan. Any reports that Mr Burns is in fact responsible for the shooting are 'grossly exaggerated' states Mr. Burns

Former production department secretary **Delores Mosco** has finished clearing out her office following her dismissal. Production department head **Forrest Bronson** will be absent on Tuesday as he will be spending the day at home cleaning out the 'skeletons in his closet'. Literally. If you are unsure what this means, don't ask Miss Mosco. She refuses to speak about what she saw at Mr. Bronson's mother's house. Suggestion that Mr. Bronson's mother's body is rotting in his home is 'laughable' states Mr. Bronson

Todd Snodgrass would like to remind all staff that he is still ADHD's art director, and even though **Miss Kitty Finch** and **Forrest Bronson** have been credited with ideas Mr Snodgrass has put forward, he is still 'with it' and can be found working hard with office manager **Vikki Vanderstandten** to 'Burn the Burn and Pinch the Finch'. Talks of a company take over are 'way out' according to Mr. Snodgrass.

Some staff members have reported seeing a baby loitering behind the ADHD offices. The baby resembles **Brandy Alexander Decanter Titan's** own baby **Osh Kosh Bgosh**. In interest of safety, Mr Burns has hired the private security firm of **Ching, Chang** and **Chong** to 'clean up the streets'. Any suggestion by Miss Mosco that Ching, Chang and Chong are involved in any illegal activities are 'mere fabrications' states Mr. Burns.
